Navodila za prijavo v spletne tečaje AI4Vet4AI

Do spletne strani dostopaš preko povezave: https://www.ai4vet4ai.eu/ . Ob vstopu se ti prikaže okence v katerega vneseš privatni elektronski naslov in klikneš na gumb »Submit«.

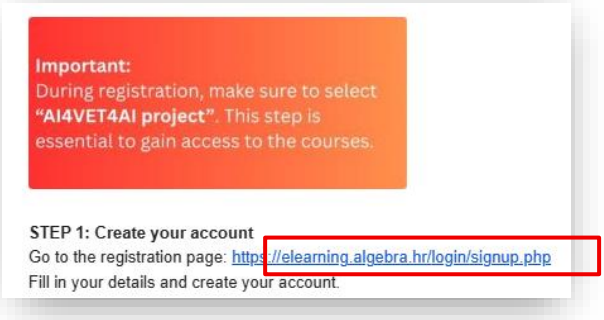

Ob kliku na gumb boš dobil sporočilo, »Check your email!«, kar pomeni, da si prejel elektronsko pošto z navodili za registracijo.

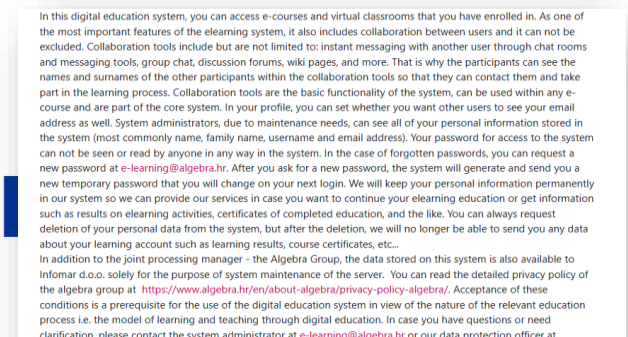

!!! Pozor: pazljivo preberi elektronsko pošto, ker vsebuje navodila za registracijo.

1. Korak – Kreiranje uporabniškega računa

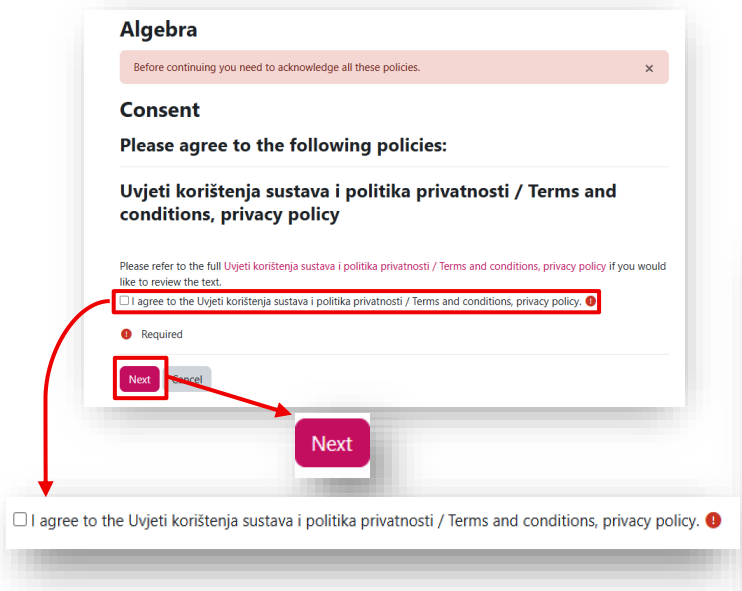

Znotraj sporočila klikni na povezavo, katera te bo peljala do spletne strani za pričetek registracije.

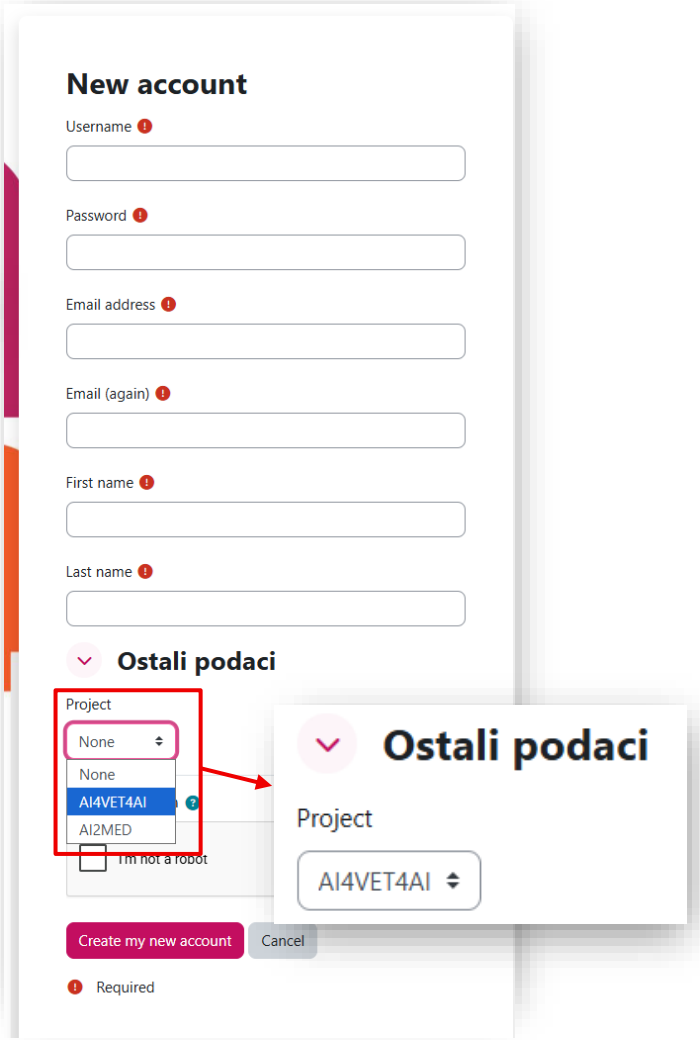

Pazljivo preberi besedilo. Ko ga prebereš, se na dnu strani nahaja gumb »Next«, s katerim nadaljuješ registracijo.

In this digital education system, you can access e-courses and virtual classrooms that you have enrolled in. As one of the most important features of the elearning system, it also includes collaboration between users and it can not be excluded. Collaboration tools include but are not limited to: instant messaging with another user through chat rooms and messaging tools, group chat, discussion forums, wiki pages, and more. That is why the participants can see the names and surnames of the other participants within the collaboration tools so that they can contact them and take part in the learning process. Collaboration tools are the basic functionality of the system, can be used within any e-course and are part of the core system. In your profile, you can set whether you want other users to see your email address as well. System administrators, due to maintenance needs, can see all of your personal information stored in the system (most commonly name, family name, username and email address). Your password for access to the system can not be seen or read by anyone in any way in the system. In the case of forgotten passwords, you can request a new password at e-learning@algebra.hr. After you ask for a new password, the system will generate and send you a new temporary password that you will change on your next login. We will keep your personal information permanently in our system so we can provide our services in case you want to continue your elearning education or get information such as results on elearning activities, certificates of completed education, and the like. You can always request deletion of your personal data from the system, but after the deletion, we will no longer be able to send you any data about your learning account such as learning results, course certificates, etc...
In addition to the joint processing manager - the Algebra Group, the data stored on this system is also available to Infomar d.o.o. solely for the purpose of system maintenance of the server. You can read the detailed privacy policy of the algebra group at https://www.algebra.hr/en/about-algebra/privacy-policy-algebra/. Acceptance of these conditions is a prerequisite for the use of the digital education system in view of the nature of the relevant education process i.e. the model of learning and teaching through digital education. In case you have questions or need clarification, please contact the system administrator at e-learning@algebra.hr or our data protection officer at

Nadaljuješ s strinjanjem Politike zasebnosti. Preberi in klikni, da se strinjaš s pogoji.

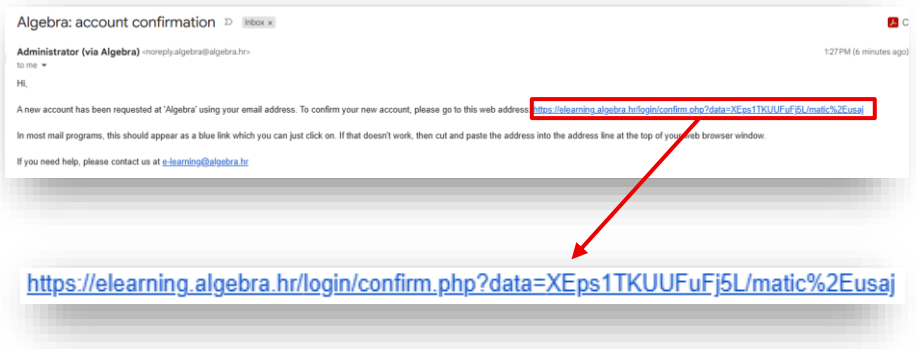

Izpolni spletni obrazec. **!!! Pozor**: pazi pri izbiri projekta. **Obvezno** izberi projekt **AI4VET4AI**. Ko izpolniš vsa vnosna polja klikni na gumb »Create my new account«.
